Samuel Fernández Fort

Valencia, Spain · [Portfolio](#) · [GitHub](#) · [Linkedin](#) · +34 610 76 42 40 · samuferfort@gmail.com

Former professional esports player with over 10 years of international competition experience. Now a full-stack web developer specializing in the modern JavaScript ecosystem (React, Next.js, Node.js), my background has taught me to work effectively in a team, stay calm under pressure, and solve problems in fast-paced environments.

PROJECTS

Twitter/ X Clone
GitHub · Demo

Full-stack social media platform replicating core X / Twitter features

- **Technologies**: React, Vite, React Query, Node.js, Express, PostgreSQL, Prisma, TailwindCSS
- **Key features:**
    - Authentication and authorization system with JWT.
    - Infinite scroll feed with optimized cache management using React Query
    - Real-time post interactions with image/GIF upload support
    - Mobile-first interface with responsive design

Instant message App
GitHub · Demo

Implemented a real time chat application inspired by WhatsApp / Telegram

- **Technologies**: React, Node.js, Express, WebSockets, PostgreSQL, Prisma
- **Key features**:
    - Real-time messaging using WebSocket connections
    - Push notifications for new messages
    - Message history with database persistence
    - Efficient state and cache management using React Query.

NeonSlug
GitHub · Demo

Built a comprehensive URL shortening platform with premium features and modern design

- **Technologies**: Next.js, React, TypeScript, Prisma, TailwindCSS
- **Key features**:
    - Real-time analytics dashboard with click and device tracking
    - Advanced features including custom URLs, QR codes, expiry control and password protected links
    - Best practices for SEO and accessibility achieving 95+ Lighthouse scores
    - Modern and responsive UI with Tailwind for seamless mobile experience
